The Women's Studies Program is an **interdisciplinary program** that offers one of the liveliest intellectual communities at UConn. **ALL** of the WS introductory courses fulfill multiple general education requirements. The WS **Major** can stand on its own or become an ideal double major, and the **Minor** can compliment a major in many other programs. Anyone interested in the critical analysis of gender and the pursuit of knowledge about women should consider learning more about becoming a WS major and minor.
